*A Perkins funded program for
student retention.*

“No one cares [about] how much you know, until they know how much you care.

- Don Swartz

The choices you make while attending school at Parkland College will affect the rest of your life, but balancing your personal life and your education isn't always easy.

The Perkins Grant funded student retention program, stay@parkland, helps CSIT* and EST* students who think the balancing act between school and life is becoming too difficult to handle on their own.

stay@parkland's Retention Coordinator will meet with students to facilitate their access to resources in order to help them reach their academic goals. The program is designed to use both Parkland College programs and services and external sources to assist students with issues affecting them every day.

Retention Coordinator

Brian Bell

ph: 217.373.3872 | e-mail: bbell@parkland.edu

*Computer Science and Information Technology & Engineering Science and Technologies

Students

To schedule an appointment, you may contact the Retention Coordinator directly or contact:

Antwanette Newton, CSIT department secretary
ph: 217.353.2099 | e-mail: anewton@parkland.edu

Faculty and Staff

If you feel a student is having difficulty in class and may be at risk, e-mail the Retention Coordinator with details of the situation. He will then contact the student directly.

We mentor on these issues and more...

-  *Cost of College or Financial Issues*
-  *Job or Other Commitments*
-  *Lack of Technology Resources*
